## Program Registration

### ■ Program: Experienced Administrators Program 2008-2009

The Experienced Administrators Program will continue this year to provide support and new learning to middle managers of all kinds. In 2008-2009 all BATDC programs will focus on the topic of change, and in this program the guiding question will be, "What skills does a leader need to facilitate change?" We will continue to probe questions related to curriculum design and review, but that will not be the only focus; we will also provide time for problem solving in a variety of contexts, exchanging ideas and solutions, and informal networking. In addition, participants will be encouraged to identify what they most need to address in their work and develop a plan to execute during the year with the help of the facilitators, guest experts, and one another.

Many participants in this program return to it over and over, as the topics change each year. It is also open to experienced administrators who have not been part of it heretofore; they will join a strong and varied group that has enjoyed as many as six previous years of collegiality and mutual support.

There will be five morning meetings throughout the school year as well as a welcome dinner and book discussion in mid-September. Facilitator Crystal Land, Assistant head at Head-Royce, will be joined by guest speakers and Janet McGarvey, director of the BATDC.

### ■ Proposed Dates:

- Friday, September 19, 2008 4:00 – 6:30: Welcome dinner, goal setting, discussion of *The Human Side of School Change* by Robert Evans
